To Merchants and Shippers.

THE Card of James Williams, President of "The Tennessee River M. M. and Trans-portation Co.," dated at Chattanooga, Janua ry 20th, has just been put into my hands, i which the price of freight over the East Ter nessee and Georgia Rail Road is contrasted with the route via Chattanooga.
"Competition is the life of trade," and non

have a right to take exceptions when fairly and honorably entered into and conducted In answer to Capt. Williams' Card I have only to say that Goods and Produce sent to the care of the East Tennessee and Georgia Rail Road, shall be carried just as cheap, and perhaps a little quicker than by any other

The Freight Cards that may issue from tim to time from Chattanooga will govern the rates on the East Tennessee and Georgia Rail Road and the Steamboats running in her con-nection, and as we do not ex sect patronage unless we work as cheap as others, none need fear being overcharged or having their Pro-

duce or Goods delayed. C. WALLACE, President. Knoxville, Feb. 6, 1854-tf

The base of the tumor appeared to be about the size of a quarter of a dellar, and growing from the face in a conical form, at least an inch. He then promised the Doctor to visit him at Murfreesborough, which he did during the next week. After an absence of about three weeks he returned. I again examined the place, the proturbance had been entirely taken off, though not cured up. I have again examined it to day, it is entirely healed up, and to all appearance is well. It was cured, as he assured me, without pain.
